Services

INSPECTION OF SITE

Wintech has assigned a special panel to inspect the site before engaging with the project. This permits to have an idea of how the work should proceed, utilizing every corner available with the site. Plotting all the essentials, a neat and pure strategy can be incorporated.

PROJECT CLOSING AND HANDOVER DOCUMENTATION

Our Project Managers have the ability to blend projects & sketches for almost all sorts of interior projects with the rates and schedules feasible for our clients.

QUANTITY SURVEY

The raw materials essential for the accomplishment of the project are noted down perfectly and each time when stocks are attained it is clearly recorded and alerted to the required team who will monitor the task effectively

SPACE PLANNING

One unique quality that Wintech has followed over the years is the way in which they craft their work. Even if the space available is minimal Wintech plays, the best designs so that no wastage of space occurs. We adhere ourselves to this fact that our clients goals are our goals and we will help them excel to the top rendering all what we possess

EVALUATION OF CLIENT REQUIREMENT

At Wintech, we treat all our clients distinctly as we believe that each one would possess different requirement. Before the commencement of a project, Wintech traverses through the essentials of the requirements of the client to get a precise view of what they are seeking for. Researches are done with respect to their needs. Wintech then incorporates a Plan & Plot strategy that will have phases and clear view of what has to be accomplished in each phase at the most affordable prices.

PROJECT PLANNING, SCHEDULING, BUDGETTING & COST CONTROL, PROGRESS TRACKING

From the time of commencement until the accomplishment of the project, Wintech will assist you precisely at each stage. A panel of experts who have proven their skills forms the base of our organization who are dedicated to serve you understanding your needs. A clear overview is illustrated as of how the project should be performed which marks a perfect order for project planning. Traversing through the needs of each one an exclusive quote will be prepared which will be studded with the best rate thereby saving a huge amount for our clients. Tracking of all events is done regularly so that work progresses in the precise path without fail.

ESTIMATION

Only after analyzing, inspecting the site and blending with ones requirements will Wintech prepare estimation by assessing all possible factors that are essential for the accomplishment of the task. Special care is taken while a quote is prepared so that all the needs are taken into account in the most proficient manner.
